

## Benefits

- Train staff to maintain ThreatZERO status and a preventive posture
- Learn to respond to threats using best practices
- Optimize CylancePROTECT<sup>®</sup> to run in your environment
- Gain hands-on skills and confidence to manage CylancePROTECT
- ROI is increased and obtained faster

Objectives will be met more often by increasing team skills.

*Bridging the Gap: Integrating Learning and Work, Towards Maturity Benchmark Study, 2012-2013*

CylancePROTECT+ThreatZERO helps organizations move towards and remain in a state of threat prevention. Managing an organization's endpoint environment can be complex so there is a need to develop a common understanding and knowledge of best practices for those that support it.

Our ThreatZERO Training is a one- or two-day, customizable course that can help IT professionals **build a foundation in supporting CylancePROTECT and ThreatZERO.** This helps to keep the endpoint environment safe, secure, and resilient against current and emerging cyberthreats, maintaining a state of prevention.

CYLANCE<sup>™</sup>  
ThreatZERO
